1.OBJECTIVES

- To learn how to approach Industry people
- To implement unique techniques to seek permission for projects and placement
- To share various experiences

2. INTRODUCTION

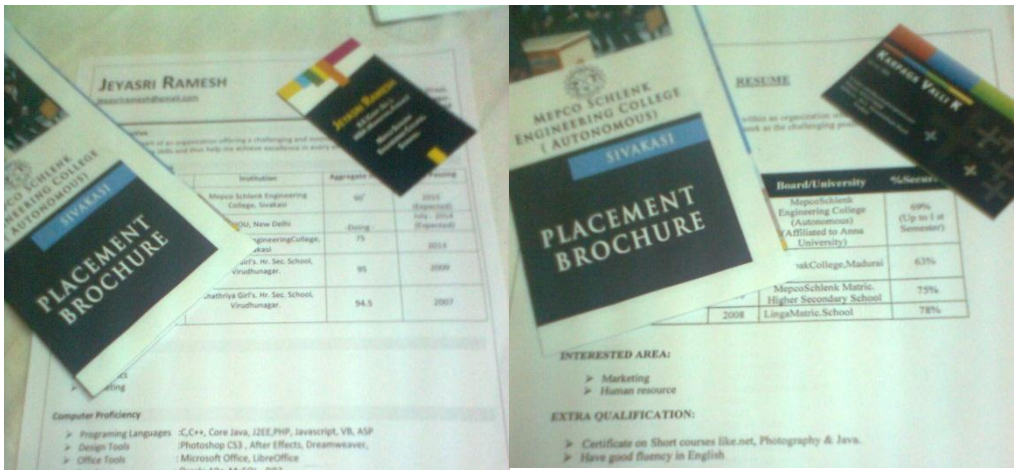
Location : Guindy Industrial Estate , Guindy , Chennai

Date : 14.2.14 (Friday) Time : 10.00 AM – 4.00 PM

It was the second day in our IV on which we set around to visit companies to see how far we could mingle with the industry people. It was around 10.30 when we stepped in Guindy Estate Bus Terminus. Guindy Industrial Estate being a damn new place for us, was breath-taking as it extended to a wide area than that we expected on seeing it in GoogleMaps. Honestly, few establishments gave us goose bumps whether we could enter it on seeing its gigantic structure. It also gave us the spirit to give a try. Initially it took us few minutes to recollect our path that we planned to take. Following were the experiences that we gained on that day.

3. SELF – PREPARATION

We surfed online for the basic details the previous night, about Guindy Industrial Estate and the companies located there. On-going through the background information about the companies we made a list of companies that we could approach based on the product/service they manufacture/deliver and also the distance between one another. We planned to opt a path through which we could cover more number of companies with less roaming as the time provided for us is short. One week back, we updated our resume, prepared a visiting card for ourselves and a placement brochure to give an idea about the companies visiting our college so that the industry people can consider our college for placements or permitting projects.



4. SUMMARY OF COMPANY VISITS

There were about 20 companies which we visited. Among them around 11 were reluctant to provide summer projects/ internships. The reasons they gave were like they were focused on job, they hav'nt allowed before, lack of trust, recently filled positions and minimum project time should be 2.5 months. We have provided the information about the companied that were willing to provide us projects or showed positive response towards engineering stream students of our college.

4.1 IS Solutions PLC.

IS Solution is a Software Company that provides prime service in setting user interface and content management consulting.

4.1.1 Company nature: Service Provider

4.1.2 Location: RR Towers (Head Quarters), Guindy Industrial Estate

4.1.3 Specific Aspects: The Company seemed to be operating with a compact team. So we doubted the chances of being permitted with projects.

4.1.4 Opportunities: HR, Finance, Marketing

4.1.5 Contact Details: 044-33780200 (Reception)

4.1.6 Personal View: We waited for a while since the HR was in meeting. He didn't show up till the end and so we spoke to the senior manager in the company. Initially we noticed that he was surprised to see us reaching their company. He even asked us whether we came for just their company all the way from Sivakasi on hearing about our background. Finally he collected our resumes and visiting cards and gave their reception number in return. He promised to contact us by next week after discussing with the HR. On recollecting the conversation, they didn't show any interest regarding engineering stream students.

4.2 Q-Way Technologies Pvt. Ltd.

4.2.3 Specific Aspects: They had a good concern for those who approach them for project.

4.2.4 Opportunities: HR, Marketing

4.2.5 Contact Details: 044-43066100 (Reception)

4.2.6 Personal Opinion: Once we reached office, we gave a brief description about ourselves to the receptionist. Then they called upon the HR Manager Ms.Ishwarya who enquired about us. She was giving us positive hope about permitting projects in Finance. Marketing was littler tougher she explained as they were stringent in selecting people. For HR just recently a student joined them so she told us to contact her after few months so that she could fill in when vacancy falls. Her way of approach was so good that we had our fingers crossed for her call. We left on getting the reception contact number for enquiring in future.

4.9.4 Opportunities: HR, Finance, Marketing

4.9.5 Contact Details: karthik.sr@indiaproperty.com (HR)

4.9.6 Personal Opinion: We were waiting for a long time and finally met the HR of the company; We underwent a little question session as our UG was unrelated to MBA. We told them that our inspirations changes thereby our career dreams also changed. He said that his company could help us to do our projects in his company. Finance projects are both allowed for internship as well as main project. Marketing was only allowed for main projects. He collected our resumes and business cards and told us to contact him after 2 days. To our surprise even the receptionist was also responsive and took care of us until we leave the company. In our view, a perfect place to work for.

4.10 The PPP Group

The PPP Group is an Android Application development company.

4.10.4 Opportunities: Marketing

4.10.5 Contact Details: 044-22250964 (Office)

4.10.6 Personal Opinion: We were able to meet the Managing Director of the company and he gave us lots of tips which was very useful and we gained a good knowledge. He was sure of giving us projects regarding market research for the apps they develop. He gave us a gist of how the project will be. He explained us the skills we'll have to develop before starting their project. He showed us few sample apps that are yet to be released. Though their expectations are at high level and the work load seemed to be more, personally we felt it would be a great opportunity for us to learn a lot. He collected our business cards and we collected his in return.

5. CONCLUSION

Thus we enriched our experience of dealing with people and study their nature and their expectations. It indeed honed our skills regarding talking with them and negotiating without coming down from our standards. We are really glad that we could convince few couple of the HRs who were reluctant to permit us projects in the beginning. Our self-preparation of both materials and prior background study indeed helped us a lot. It's an experience worth remembering as it gave us the confidence to approach different natured people.
